

# WHEEL OF CONSCIENCE UNVEILING

The Wheel is unveiled

Darius Mosun, Toronto Councillor Doug Ford & Ralph Chiodo

At a recent ceremony in Toronto, the Wheel of Conscience monument was unveiled by representatives from Soheil Mosun Ltd on January 10th. The wheel was designed and built to remember those who embarked on the S.S. St. Louis prior to World War 2. The Jewish passengers, seeking an escape from Nazi Germany, boarded the ship with extremely high hopes, only to face struggle and uncertainty. The S.S. St. Louis was denied by officials here in Canada, among other destinations, and forced to return to Europe. While the wheel does represent a dark moment in our history, it also represents how far we've come since then as well. The gears that move the wheel, named "Hatred, Racism, Xenophobia, & Anti-Semitism", serve a symbolic function as to how it operates and moves with an image of the ship etched into the wheel. The unveiling took place before the monument takes its final rest at Pier 21 in Nova Scotia.

# SAVI'S INTERCITY BOCCE TOURNAMENT

Gino, Giuseppe, Mirto, & Domenic

Mayor Maurizio Bevilacqua with the day's participants

SAVI, the Seniors Association of Vaughan Initiative, recently held the 3rd Annual Intercity Bocce Tournament. Ten teams vied for the championship trophies, and bragging rights for the year, in a spirited yet sportsman-like affair. The teams comprised of local seniors from a variety of senior social clubs in the community. An event like this can never run smoothly without contributions from local businesses, and the Vaughan business and political community stepped up in a major way. Regional Councillor Gino Rosati sponsored the pizza lunch while Joe Aiello from Fontana Gardens provided dinner post-tournament. After all was said and done, tournament organizers, accompanied by Councillor Sandra Yeung-Racco, presented the top 3 teams with trophies on a day when all involved left the bocce and recreation centre on Tigi Court as winners.
