

325 Bay Street, Toronto - Monumental Staircase

Location Toronto - Ontario
Designer/Architect Il by IV Design Associates
Duration Oct 2010 - Jan 2013

Scope - Soheil Mosun Limited was contracted to manufacture and install the monumental staircase from the 9th floor to the 10th floor grand ballroom, as well as a second custom staircase to the second floor common area.

Highlights - The monumental staircase features custom sculptured steel guard panels with ornamental floral design, stone treads and risers, and custom newel posts. The steel guard panels are painted silver for an ultra long lasting finish. Stringer close out panels contain a lighting system to illuminate beneath the staircase. Railings are stainless steel and the main staircase is mechanically fastened to the outside wall's infrastructure, ensuring stability and strength for the lifetime of the staircase.

Stringer close out panels with built in lights
